# CSSLP Certification Training

This training course focuses on how to learn how to incorporate security best practices into every phase of the software development lifecycle.

## Course Overview

Our 5-day, instructor-led CSSLP (Certified Secure Software Lifecycle Professional) training and certification boot camp in Washington, DC Metro, Tysons Corner, VA, Columbia, MD or Live Online is aimed at software development lifecycle professionals who are responsible for application security. It covers eight domains:

1. Secure Software Concepts
2. Secure Software Requirements
3. Secure Software Design
4. Secure Software Implementation/Programming
5. Secure Software Testing
6. Secure Software Lifecycle Management
7. Software Deployment, Operations, and Maintenance
8. Supply Chain and Software Acquisition

This course will fully prepare you for the (ISC)<sup>2</sup>® CSSLP® Certification exam.

Before enrolling in the course, you should have at least four years of experience in Software Development Lifecycle (SDLC) professional work in one or more of the 8 domains of the CSSLP CBK.
